

Supplemental Material

Supplemental Figure S1. Trend in CAD testing over time, presented as the portion of all patients on the kidney transplant waitlist on January 1 of each calendar year who underwent elective CAD testing that calendar year. Center-specific reports were available online to the public since 1999. Center of Medicare and Medicaid Services (CMS) started issuing of conditions of participation (COP) to transplant programs in 2007. Three landmark negative trials in CAD screening were published in 2003², 2007³ and 2009⁴.
