Debates in Nephrology

1184 Can NSAIDs Be Used Safely for Analgesia in Patients with CKD?: PRO
Erin F. Barreto and Molly A. Feely
See related debate on page 1189 and commentary on page 1192.

1189 Can NSAIDs Be Used Safely for Analgesia in Patients with CKD?: CON
Bruce Guthrie
See related debate on page 1184 and commentary on page 1192.

Moderator Commentary

1192 Can NSAIDs Be Used Safely for Analgesia in Patients with CKD?: COMMENTARY
Megan L. Baker and Mark A. Perazella
See related debates on pages 1184 and 1189.

Original Investigations

Acute Kidney Injury and ICU Nephrology

1195 Interhospital Transfer and Outcomes in Patients with AKI: A Population-Based Cohort Study
Abhijat Kitchlu, Joshua Shapiro, Justin Slater, K. Scott Brimble, Jade S. Dirk, Nivethika Jeyakumar, Stephanie N. Dixon, Amit X. Garg, Ziv Harel, Andrea Harvey, S. Joseph Kim, Samuel A. Silver, and Ron Wald

Chronic Kidney Disease

1206 Randomized, Placebo-Controlled Trial of Rifaximin Therapy for Lowering Gut-Derived Cardiovascular Toxins and Inflammation in CKD

Diabetes and the Kidney

1217 Histopathologic and Clinical Features in Patients with Diabetes and Kidney Disease
Sarah F. Sanghavi, Travis Roark, Leila R. Zelnick, Behzad Najafian, Nicole K. Andeen, Charles E. Alpers, Raimund Pichler, Ernest Ayers, and Ian H. de Boer

Dialysis

Dalvir Kular, Irina Chis Ster, Alexander Sarnowski, Eirini Lioudaki, Dandisonba C.B. Braide-Azikiwe, Martin L. Ford, David Makanjuola, Alexandra Rankin, Hugh Cairns, Joyce Popoola, Nicholas Cole, Mysore Phanish, Richard Hull, Pauline A. Swift, and Debasish Banerjee

1244 Characteristics and Effectiveness of Dedicated Care Programs for Patients Starting Dialysis: A Systematic Review
Mirna Attalla, Zoe Friedman, Sandra McKeown, Ziv Harel, Jay Hingwala, Amber O. Molnar, Patrick Norman, and Samuel A. Silver

1254 Management of Hemodialysis Patients with Suspected or Confirmed COVID-19 Infection: Perspective from the Spanish Nephrology
Emilio Sánchez-Alvarez, Manuel Macía, and Patricia de Sequera Ortiz
Predictors of Arteriovenous Fistula Failure: A Post Hoc Analysis of the FAVOURED Study
Yong Pey See, Yeoungjee Cho, Elaine M. Pascoe, Alan Cass, Ashley Irish, David Voss, Kevan R. Polkinghorne, Lai Seong Hooi, Loke-Meng Ong, Peta-Anne Paul-Brent, Peter G. Kerr, Trevor A. Mori, Carmel M. Hawley, David W. Johnson, and Andrea K. Viecelli, on behalf of the Omega 3 Fatty Acids (Fish Oils) and Aspirin in Vascular Access Outcomes in Renal Disease (FAVOURED) Study Collaborative Group

Long-Term Beneficial Effects of Tonsillectomy on Patients with Immunoglobulin A Nephropathy
Takahito Moriyama, Kazunori Karasawa, Yoei Miyabe, Kenichi Akiyama, Yuko Iwabuchi, Shota Ogura, Tomo Takabe, Naoko Sugiura, Momoko Seki, Norio Hanafusa, Keiko Uchida, and Kosaku Nitta

A Prospective, Double-Blind, Randomized, Placebo-Controlled, Crossover Study Using an Orally Administered Oxalate Decarboxylase (OxDC)
Emily Quintero, Victoria Yvonne Bird, Howard Liu, Gary Stevens, Alan S. Ryan, Sabrina Buzzerd, and Ira W. Klimberg

Survey of Clinician Opinions on Kidney Transplantation from Hepatitis C Virus Positive Donors: Identifying and Overcoming Barriers
Krista L. Lentine, John D. Peipert, Tarek Alhamad, Yasar Caliskan, Beatrice P. Concepcion, Rachel Forbes, Mark Schnitzler, Su-Hsin Chang, Matthew Cooper, Roy D. Bloom, Roslyn B. Mannion, and David A. Axelrod

The Role of Telenephrology in the Management of CKD
Justin M. Belcher

Beware the Ides of March: A Fellow’s Perspective on Surviving the COVID-19 Pandemic
Judy Hindi, Nicholas Fuca, and Luis Sanchez Russo

mTOR Signaling in Kidney Diseases
Yuan Gui and Chunsun Dai

AKI and Hypercalcemia in a Patient with Weakness and Fatigue
Cheyenne Rahimi, Mathias Stroemel, and Nicole K. Andeen

Apparent AKI in a Patient with Ascites Following Laparoscopic Hysterectomy
Carmen Elena Cervantes, Steven Menez, and Mohamad Hanouneh

Renal Infarction in a Patient Found to Have a Dysproteinemia
Jayesh Patel, Carol J. Holman, and Mony Fraer

Diagram of mTOR signaling activation in acute kidney injury and kidney fibrosis. In response to acute injury, tubular epithelial cells undergo injury and death. Activated mTOR signaling in kidney fibroblasts facilitates tubular cell survival and proliferation via PPARγ and HGF induction. In chronic kidney disease, mTOR signaling activation promotes fibroblast and macrophage activation and proliferation to produce ECM and renal fibrosis. From Figure 2 of “mTOR signaling in kidney diseases” by Yuan Gui and Chunsun Dai. KIDNEY360 1: 1319–1327, 2020. doi: 10.34067/KID.0003782020.
