*Megan Prochaska and Elaine Worcester*

## Clinical Images in Nephrology and Dialysis

---

- 1462 Abnormal Imaging Findings of the Kidneys in a Patient with Shock**  
*Xinyi Luo, Aileen Grace Cielo, and Juan Carlos Q. Velez*
- 1464 Severe Hypertension in a 3-Month-Old Infant**  
*Jonathan Chawla, David Manning, and Isa Ashoor*
- 1466 Back Pain and Lower Extremity Sensory Loss in an ESKD Patient**  
*Christian Maalouly, Bernard Vó, and Laura Labriola*

### On the Cover

Brown tumor of the thoracic spine. (Left panel) Magnetic resonance imaging of the spine reveals diffuse bone marrow infiltration and fracture of T3 causing cord compression. (Right panel) Light microscopy shows multiple multinucleated giant cells, stromal cells and hemosiderin deposits (hematoxylin and eosin stain; original magnification  $\times 40$ ). From Figure 1 of "Back pain and lower extremity sensory loss in an ESKD patient" by Christian Maalouly, Bernard Vó, and Laura Labriola. *KIDNEY360* 1: 1466–1467, 2020. doi: 10.34067/KID.0003322020.
